

MARIA ECKERBERG

UX DESIGNER & FRONTEND DEVELOPER

(+46) 739 - 62 51 01

maria@eckerberg.se

EXPERIENCE

Frontend Developer @ ParkTrade

DEC 2021 -

Frontend development and UI/UX for ParkTrade's web services, applications and backoffice environment. Technologies: TypeScript/Angular, HTML, SCSS, Azure DevOps, Git.

Project Manager @ Shero Leaders

FEB 2021 - DEC 2021

Project manager in a startup, working with a licenced therapist and mindfulness coach. We built an online community to empower female entrepreneurs. I was responsible for planning and overseeing the project, and facilitated online workshops.

Frontend Developer @ Elgiganten

JUN 2020 - FEB 2021

Planet 9 development using JavaScript, CSS and REST API services. I also worked with internal processes and ways of working together as a cross-functional team. I added more focus on UX and appearance of the apps, as well as Elkjop-branding for the Planet 9 environment. Technologies: JavaScript, HTML5, SCSS, REST API, Open UI5, Swagger, Neptune DXP - Planet 9, UX design.

Web Designer & Developer @ Eniro

JAN 2019 - APR 2020

Designing and developing websites for small and mid-sized businesses, helping them evolve their brands and strengthen their online identity. I was responsible for the entire design process, from user research to implementation.

EDUCATION

C#.NET Developer @ AW Academy

SEPT 2018 - JAN 2019

Accelerated Learning Program, covering C# .NET, ASP.NET, MVC, SQL, HTML & CSS, JavaScript, jQuery & React, Scrum, UX, Git.

Web Design @ University West

AUG 2017 - JUNE 2018

Distance course in digital graphics, photo editing, web programming and mobile web applications.

Bachelor of Arts in Cognitive Science @ Linköping University

SEPT 2014 - JUNI 2017

Human-computer interaction, neuro science, cognitive psychology, linguistics, philosophy, web programming, UX design. For my bachelor thesis, I designed a digital prototype for patient self registration in a Swedish emergency ward.

PROFILE

Coming from a background in service and sales, I love to deliver customer experiences with a little something extra. Through studies in human cognition, design and programming, this ambition has developed into a passion for beautiful and usable digital interfaces.

After my studies, which focused heavily on UX design, I have tried various roles as a consultant and enjoy working in diverse teams.

I am passionate about communication and have a skill for helping people from different backgrounds work together and understand each other.
